NATURAL

Country Collection is a wise choice for those who want a one-of-a-kind design. Natural palette of the brushed wood texture gives an antique feel to the flooring. The feeling of warmth and comfort are intensified by the Silk finish.

Protective finishes

- Silk finish – environmentally clean finish with a slight matte sheen. Together with brushing it allows to preserve the natural beauty of wood, underlining its texture. Surface feels natural and pleasant to the touch.
- Silk mat finish creates a more matte surface, relaying the texture and the feeling of natural wood.

The finishes protect the planks from wear and dirt and do not require much effort to maintain, being easy to renew.

Constructions

- 3-layer single-strip flooring with tongue and groove (T&G) connection
- 3-layer single-strip flooring with CosLoc 5G connection

Increased stability construction

3-layer construction was created using the best research of Coswick Ltd. It has increased stability and retains all its properties in a wider range of humidity.

PASTEL

European flooring traditions and cutting edge technologies are intertwined in this collection. Original and varied decors, from warm soft wood tones to unique two-colour decors, plays around with the natural texture of wood and allows the use of flooring in many different design styles.

The beauty of oak flooring and its unique texture and knots is ever more pronounced with the use of brushing and Silk finish.

Arts and Crafts Collection has at its core the philosophy of its namesake, a turn of the century decor and art movement. Quality materials, simple yet functional forms is something that is still highly valued by people who want to live in harmony.

The collection is defined by its focus on wood and usage of different effects to highlight its natural state. Knots, cracks, handmade restorations, cross-cuts and brushing: with these techniques and ultramatte finish we present a highly-textured oak plank with beautiful knots that is pleasant to the touch.

An interesting palette of warm wood tones, white-washed and grey tones, all necessary choices to pick a floor that will accentuate your home's individuality and provide natural beauty of wood.

Protective finishes

- Silk finish – underlines the natural wooden texture and preserves its silky surface feel. The finish protects the planks from wear and dirt and does not require much effort to maintain, being easy to renew, giving it a nearly infinite lifetime.

CEDAR

Wide Plank flooring (300 mm) is best to bring out the unique texture and beauty of oak and American walnut, along with giving pizzazz to the more spacious rooms, or widening and enhancing smaller places. Works great in different design styles, including (but not limited to) country, vintage and provenance.

The highlight of the collection is the rustic wide plank decorated with restored cracks and dovetail inlays. Each plank is unique as if made by a master cabinetmaker. This flooring is sure to underline the individuality of your home.

The stability of wide plank flooring is provided by the 3-layer increased stability construction with T&G connection, 19.05 mm thick.

Protective finishes

- Silk mat finish – underlines the natural wooden texture and preserves its silky surface feel. The finish protects the planks from wear and dirt and does not require much effort to maintain, being easy to renew.
