THE COLLECTION

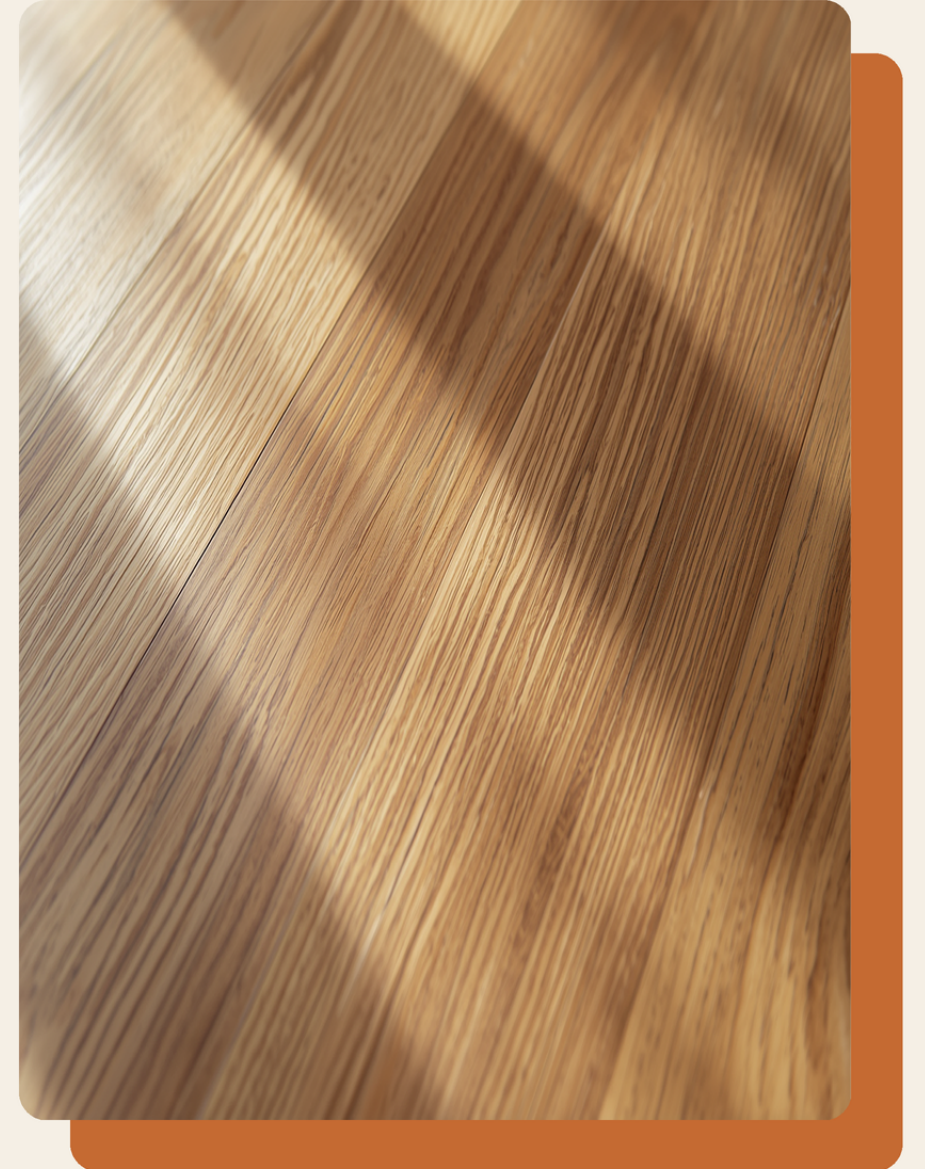

Real Timber, Reimagined

Engineered timber pairs a genuine hardwood wear layer with a cross-bonded, multi-ply core. The result is the authentic warmth, grain and character of natural timber, with markedly greater dimensional stability than a solid board.

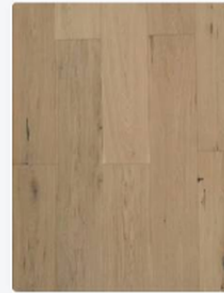

This layered construction resists the seasonal movement timber is prone to, making it suitable across a wide range of subfloors and environments — from heritage homes to contemporary apartments.

WE OFFER

- Free measure & quote
- NSW acoustic certified
- Emissions & formaldehyde compliant

QUALITY, CARE & COMPLIANCE

Care & Compliance

Sweep or vacuum regularly and clean with a well-wrung, damp mop — never wet. Wipe spills promptly, fit felt protectors beneath furniture, and keep indoor humidity stable to protect the timber's finish and form.
